Alistair Van Moere, Ph.D., Chief Product Officer

Short:

With extensive experience in test development, delivery and validation, Alistair is an internationally recognized expert and author in EFL/ELL assessment. He is frequently invited to speak at conferences on AI scoring of speech and writing, assessment technologies and large-scale educational testing.

Bio:

Alistair Van Moere joined MetaMetrics in 2017 and is responsible for driving innovation in the company's products. Previously, he was President of the Knowledge Technologies group of Pearson, where he managed Pearson's state-of the-art artificial intelligence scoring services for writing, speaking and math. He also oversaw the business for award-winning K–12 products such as aimsweb, Stanford-10 and Developmental Reading Assessment, and automatically scored language assessments including WriteToLearn, TELL and Versant. Alistair's PhD from Lancaster University won the Jacqueline Ross TOEFL Award for best dissertation in the field of language testing, and he holds an MBA from Warwick Business School. With an extensive international background in teaching and research, he is a frequently invited speaker at conferences and has authored over 20 publications with a focus on educational technology and language assessments.
