

Eleanor E. Sanford-Moore, Ph.D., Senior Vice President, Research & Development

Short:

Prior to joining MetaMetrics, Ellie was a senior testing consultant for the North Carolina Department of Public Instruction and was responsible for developing high stakes assessments. Additionally, she served on various national committees related to large-scale assessment.

Bio:

Ellie Sanford-Moore oversees MetaMetrics' research and development projects, including The Quantile[®] Framework for Mathematics, linking studies and other external consulting and development engagements. Prior to joining the company in 1998, she was senior testing consultant for the North Carolina Department of Public Instruction. Ellie was responsible for developing the North Carolina End-of-Grade Tests of reading and mathematics for grades three through eight, and the North Carolina End-of-Course Tests for 10 high school subjects. She has served on various national committees related to large-scale assessment. Ellie earned her undergraduate degree in statistics from North Carolina State University, a teaching certificate in mathematics and general sciences from Montana State University, and both her master's and doctorate of philosophy in psychology from North Carolina State University.
