Promote Learning at Home this Summer with Find a Book

Lexile® Find a Book is a free book search tool. It uses your child’s reading ability and personal interests to search more than 210,000 books. It can be useful for students of all ages.

Find a Book

Find books for your child based on reading ability, personal interests, and more. Search for different kinds of books. These can include books in Spanish, graphic novels, and books for beginning readers.

With Find a Book, You Can...

Create a Personal Bookshelf

Favorite a book to add it to your personal bookshelf. Books from 100L below to 50L above your child’s Lexile measure are the right difficulty level. Readers can still enjoy books in a much wider range. It all depends on their interests and motivation.

Select Books

The reading level of a book is only one factor to consider when helping your child select a book. Think about your child’s interests, motivation to read, and maturity level. Also, think about the book’s themes, as well as whether your child is reading for learning or pleasure.

Get Books

After selecting a book, click on “Find in Library” to see if it is available at your local library.

For More Information

The Lexile Framework can support learning at home. To learn more about it, visit https://lexile.com/parents-students/.
